Massachusetts Vital Records Information Collaborative (MAVRIC)
Practice Training Site

The MAVRIC training site (also known as the sandbox) is a practice environment that mimics MAVRIC and is available 24/7.

Usage Recommendations

- The URL is: <https://demo.davema.vitalchek.com/web/Logon.aspx>.
- In the training site, we have established shared, role-based user accounts to assist partners with learning the MAVRIC system. Partners will not have individual accounts in the training site. See page 2 for usernames and the one password for everyone.
- The role-based accounts are set up to represent an opt in community and an opt out community.
- The training site is configured so multiple users can use these shared accounts concurrently.
- There will be minor user interface differences between the MAVRIC practice training site and the live system, but this will not impact functionality.

Review the [MAVRIC Practice Training Site doc](#) for more details.
